The Penn Manor School District provides a TI – 30X IIS Texas Instruments calculator for students in grades 4 through 6. However, the teachers recommend that students purchase their own own scientific calculator that will be used in grades 4 through 6. In seventh grade, all Marticville Middle School students are required to purchase his or her own scientific TI – 30X IIS Texas Instruments calculator. Just think, the earlier you buy your child their own scientific calculator, the more use for the money!

The calculator you purchase MUST be a TI – 30X IIS Texas Instruments calculator so all the students are learning the same functions (see image). The calculator can be found for about \$15.00 and in multiple colors at K-Mart, Target, Wal-Mart, Radio Shack, Office Max, Staples, and other office supply stores.
